

U.S. Army Aviation and Missile Command "Readiness at the Point of Need"

Anticipation and preparation for future maintenance, repair and overhaul requirements provides the Warfighter with the best advantage at the point of need. CCAD uses the entire Aviation Enterprise to provide coordinated, effective and efficient support to the Warfighter.

Corpus Christi Army Depot (CCAD)

CCAD is the industry leader for the repair and overhaul of helicopters, engines and components. The depot operates as a premier business partner within the Aviation and Missile Command and Army Materiel Command to support every Soldier, Sailor, Airman and Marine.

The depot returns U.S. Army rotary wing aircraft and components to the fight with uncompromising quality, at the lowest possible cost, in the shortest amount of time. CCAD supports the Army's accident investigation processes worldwide with materials expertise and laboratory analysis, while remaining focused on safeguarding the workforce and integrating safety and risk mitigation into every aspect of depot operations.
