

**M**ission: Perform/Manage field and sustainment level maintenance support and technical assistance for all AMCOM commodities in support of customers worldwide.

**W**e Support: FSRD provides maintenance support for Army Aviation and Missile Systems to ACOMS, TRADOC, PEO Aviation, PEO Missiles & Space, PD-TMDE, FMS, and other customers.

## Field Support Directorate

**F**SRD provides timely and quality support to meet customer needs in a myriad of maintenance, logistical, and technical areas. A proven, capable, and experienced workforce remains at the ready to quickly provide highly specialized assistance through the following FSRD organizations:

**The Aviation Field Maintenance Directorate (AFMD)** – AFMD provides aviation field and sustainment level maintenance support, aircraft modifications and upgrades, and other logistical support services to a wide range of aviation customers around the world.

**The Readiness Directorate (RE)** – RE delivers a highly skilled technical workforce of Logistics Assistance Representatives (LAR) who provide logistical and maintenance training, technical support, and readiness analysis of fielded systems.

**Fleet Management Expanded (FMX)** – FMX provides reliable and uninterrupted field level maintenance support to TRADOC training base fleets/equipment and ensures the availability of equipment to meet the TRADOC training load.

**The Systems Sustainment Management Division (SSMD)** – SSMD helps ensure unit readiness through integrated partnerships with PEO/PMs and other Warfighter support organizations providing capability in the areas of electronic repair, small arms repair, calibration set repair, and machine shop operations.
