

# U.S. Army Aviation and Missile Command "Readiness at the Point of Need"

**M**ission: Support Army readiness by providing test, measurement and diagnostic equipment (TMDE) calibration and repair support while ensuring that the measurements made with calibrated TMDE are traceable to national, international, or intrinsic standards of measurement.

**V**ision: Be the primary provider of Metrology, Calibration, and Repair Support (C&RS) in the Army.

## U.S. Army Test, Measurement, and Diagnostic Equipment (TMDE) Activity (USATA)

**U**SATA is a key contributor to U.S Army weapon system readiness by providing metrology and calibration resources for TMDE used by Army maintainers to service a preserve U.S. Army materiel. USATA enhances Soldiers' confidence by ensuring Army vehicles, weapons, and equipment operate safely and properly through routine calibration of TMDE.

**U**SATA supports all Army Life Cycle Management Commands (Aviation and Missile, Soldier and Ground Systems, Communications and Electronics and Joint Ammunitions), Research and Development Centers, Depots and Arsenals, Active, National Guard, and Reserve Forces, Department of Defense (DoD) and non-DoD agencies and activities.
